

These lists are not exhaustive, but should give you an idea of what is acceptable and what is not acceptable.

#### ACCEPTABLE AND ENCOURAGED

- Collaborating on homework problems, but working through your own.
- Collaborating on lab reports, but using your own wording.
- Helping or tutoring others who are having trouble understanding.
- Comparing answers with another student to see if you are on the right track.

#### UNACCEPTABLE AND STRONGLY DISCOURAGED

- Copying homework problems from another student while substituting in your own numbers.
- Entering answers into Webassign for another student.
- Copying and pasting part or all of another student's lab into your own. Afterward modifying it to be your own words is still unacceptable.
- Giving your lab report file to another student, no matter what assurances you have from that student that they will not use it to cheat.
- Figuring out answers for another student or giving answers to another student.
- Doing another student's work.
