

Wk 34 Musical Instruments

name: _____

3. Musical Instruments

1. What are the three ingredients of a musical instrument?

2. Pick one musical instrument from each group:

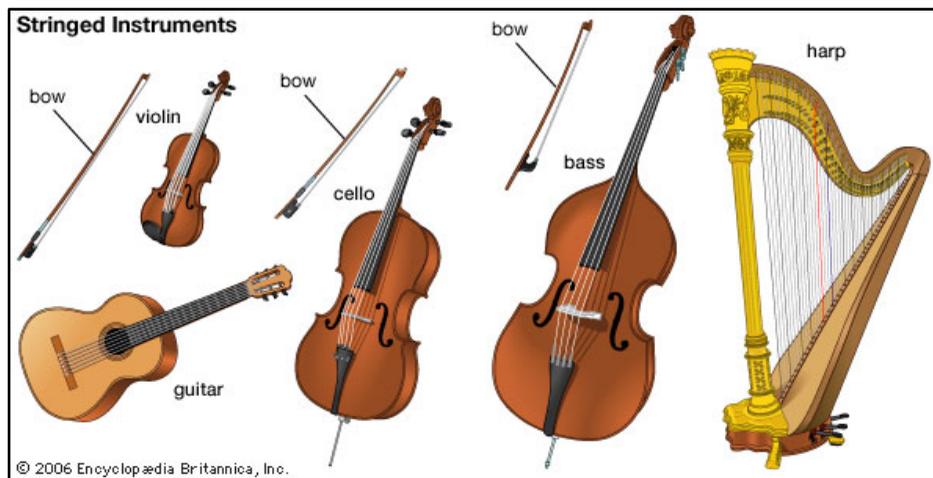

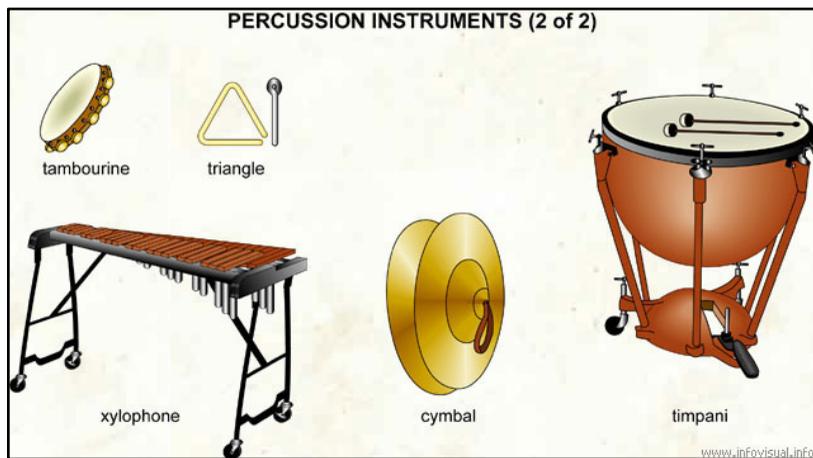

Percussion, Brass, Woodwind, & Stringed and identify its characteristics.

Stringed Instrument	
The vibration that gets the wave started.	
What holds the standing wave.	
Whether the body tends to resonate with higher, lower and/or midrange frequencies.	<input type="checkbox"/> higher <input type="checkbox"/> midrange <input type="checkbox"/> lower

Woodwind Instrument	
The vibration that gets the wave started.	
What holds the standing wave.	
Whether the body tends to resonate with higher, lower and/or midrange frequencies.	<input type="checkbox"/> higher <input type="checkbox"/> midrange <input type="checkbox"/> lower

Brass Instrument	
The vibration that gets the wave started.	
What holds the standing wave.	
Whether the body tends to resonate with higher, lower and/or midrange frequencies.	<input type="checkbox"/> higher <input type="checkbox"/> midrange <input type="checkbox"/> lower

Percussion Instrument	
The vibration that gets the wave started.	
What holds the standing wave.	
Whether the body tends to resonate with higher, lower and/or midrange frequencies.	<input type="checkbox"/> higher <input type="checkbox"/> midrange <input type="checkbox"/> lower

These are just some examples; there are more.
